

# BI – Data Integration Developer

**Lux-Advisory** is a company specialized in project management and business analysis. Our consultants take part in European or International projects. To support the increase of our activity, we are currently looking for a **BI – Data Integration Developer**.

## Mission

BI / Data Integration developer will integrate the IT BI Team that

- Takes in charge IT actions in the context of the BCBS239 regulation implementation roadmap
- Supports the BI Team on new projects and corrective development requests
- Take part in the improvement of the data integration platform

## Responsibilities:

- Design and implement the technical solution (dataflow, source / target data mapping, data controls, database changes, reports, ...)
- Support for evolutionary and corrective development requests within the framework of BI reporting by ensuring the quality of deliverables
- Conduct business meetings with customers to determine requirements and milestones
- Ensure the quality of the delivery by conducting tests (including performance test), troubleshooting and integrating new elements
- Deliver solution in a timely manner and ensure continuity of service
- Develop positive working relationship with customers and other department staffs
- Deliver solution in a timely manner and ensure continuity of service

## Skills

- Bachelor Degree in Technology, Finance, Economics or equivalent
- Minimum of 2-5 years' experience in a similar job
- Knowledge in BI Architecture and Data Warehouse concepts
- Good knowledge of Oracle database (SQL & PL/SQL)
- Experience in dataflow design with Oracle Data Integrator
- Experience in report design with Cognos Report Studio or SAP Business Object Web Intelligence
- Broad understanding of standards, methodologies and technology necessary to support banking operations.
- Proven expertise and established track record in Project Management Officer role or similar function
- Proficient in building relationships, strong interpersonal
- Excellent written and oral French and English skills are essential, any other language is an advantage
