

Technical Lead

Lux-Advisory is a company specialized in project management and business analysis. Our consultants take part in European or International projects. To support the increase of our activity, we are currently looking for a **Technical Lead**.

Mission

As a Technical Lead your mission will be to:

- Design, formalize and implement technical solutions for our projects related to the Fund Operations (Fund Admin, Transfer Agent, ...)
- Provide technical expertise, coaching and design skills. Providing guidance and support for approved, initiated projects to develop detailed designs based on solution architecture, current standards and architecture best practices
- Collaborating closely with the members of the Funds Solutions team, as well as with the Architecture team and development teams
- Understand, adapt and contribute to innovation of target architectures
- Proactively introduce and endorse good practices related to the projects' technology stack
- Release management

Experience

- Experience working in an agile context (ideally within the SCRUM framework) as well as knowledge of low-code development platforms are considered a plus
- Minimum of 5 years' design and implementation experience in IT and a strong experience of software development
- Good funds administration knowledge is a plus

Skills

- Strong database modelling skills
- Strong experience in PL/SQL, Windev, Mendix
- Experience in a major Object-Oriented Programming language
- Experience in the Multifonds GA or GI platform is recommended
- Experience in the Luxis platform is recommended
- Demonstrable proficiency in modelling languages (e.g. UML)
- Excellent interpersonal skills in areas such as teamwork, facilitation and negotiations, with strong leadership skills
- Excellent analytical skills
- Excellent written and verbal communication skills (in both French and English)
- Excellent planning and organisational skills
- Ability to work with developers on-site and in an outsourced environment
- Ability to understand the long-term ("big picture") and short-term perspectives of situations
